WHAT IS PATIENT NAVIGATION?

Patient navigation addresses health inequities by eliminating an individual's barriers to quality care – helping patients effectively navigate a fragmented health care system.

WHO SHOULD PARTICIPATE?

Patient navigators or those who are doing navigation in the following ways:

- Community Health Workers
- Care Coordinators
- Case Managers
- Social Workers
- Nurse Navigators
- Medical Assistants
- Providers
- All Patient-Facing Roles

WHAT WILL YOU GET?

- Extensive culturally responsive training
- A certificate of completion and virtual Navigation Nation Community induction
- Ongoing opportunities to learn and network
